LJD2

Product Description

The Interlevin LJD range of juice dispensers offers a versatile way to chill and serve a variety of drinks at the perfect temperature. The design allows easy cleaning while the stainless steel tap can quickly be removed for improved hygiene. The paddle stirring system ensures even cooling of the beverage, though this can be turned off if not required. It is suitable for diluted concentrates or fruit juice (with pulp). The clean design looks great on any counter. Single, double or triple tank options give you an excellent choice of coolers for all situations. (Please note these units are not suitable for milk, slush or yoghurt).

Features and Benefits

- Fully automatic
- Adjustable feet
- Digital controller
- Sealed magnetic paddle for stirring that protects the motor from liquid ingress
- great for squash or juice or juice with fruit pulp
- Stainless steel tap for easy cleaning (food grade 304 stainless)
